Rural Resort Dwellers

6E

Households: 1,215,000

Average Household Size: 2.21

Median Age: 52.4

Median Household Income: \$46,000

WHO ARE WE?

Although the Great Recession forced many owners of second homes to sell, *Rural Resort Dwellers* residents remain an active market, just a bit smaller. These communities are centered in resort areas, many in the Midwest, where the change in seasons supports a variety of outdoor activities. Retirement looms for many of these blue collar, older householders, but workers are postponing retirement or returning to work to maintain their current lifestyles. Workers are traveling further to maintain employment. They are passionate about their hobbies, like freshwater fishing and hunting, but otherwise have very simple tastes.

OUR NEIGHBORHOOD

- Housing is owner-occupied, single-family homes, with some mobile homes. A strong market for second homes, these rural areas provide affordable homes valued at 8% less than the US median home value. Over half of the housing units are vacant due to a high seasonal vacancy rate.
- In this older market, 42% of households consist of married couples with no children at home, while another 28% are single person. Married couples with children at home have older school-age children.
- Set in scenic rural locations with proximity to outdoor activities, two vehicles are essential to get around.

SOCIOECONOMIC TRAITS

- *Rural Resort Dwellers* residents are close to retirement. They've accumulated wealth and begun to shift their portfolios to low-risk assets. These active residents continue to work in skilled occupations.
- Simple tastes and modesty characterize these blue collar residents. They shop for timeless, comfortable clothing, but only when something must be replaced. They pay little attention to advertising and usually stick to the brands they know.
- They spend time with their spouses and also maintain a social calendar.

- At home, *Rural Resort Dwellers* residents spend any free time working on their vehicles and maintaining their gear. They make frequent trips to their local hardware store for parts and tools. These hands-on consumers are also passionate about vegetable gardening.
- Due to their remote locations, these neighborhoods have satellite dishes. A few residents still rely on dial-up modems to stay connected. They don't access the Internet often but will make online purchases for items difficult to find in nearby stores.
- Their taste in TV shows reflects their hobbies—Animal Planet, Discovery Channel, and the DIY Network.
